**LET NOTHING
HOLD YOU BACK.**

Leasing offers a variety of benefits.¹ For example, customers who prefer to operate newer equipment can lease instead of purchase and typically pay lower upfront costs and monthly payments.* Leasing is also a convenient option for customers who are not interested in owning equipment or having to sell or trade the equipment. Different lease types are available, all with fixed monthly payments throughout the lease period.

AS AN ADDED CONVENIENCE, CUSTOMERS MAY INCLUDE THE FOLLOWING WITHIN THEIR LEASE PAYMENT:

- Truck bodies and vehicle modifications
- Federal excise tax / sales tax
- Vehicle titling fees
- Service solutions
- Extended service contracts

TAX IMPLICATIONS²

Lease payments are typically fully deductible as an operating expense. Consult with your tax preparer and reference your local and state tax laws for more details.

Navistar Financial offers several types of leases in order to best meet the needs of your business. The following pages will explain the differences.

* Lease products are only available on new vehicles

FINANCE LEASE

A finance lease is intended for customers reasonably certain to purchase the vehicle at lease end, for a predetermined amount (typically \$1 or another nominal amount). Lease payments are fixed over the term and generally larger than other lease products.

FINANCE LEASE BENEFITS

- Compatible with specialized assets
- No mileage restrictions
- The customer owns the vehicle at end of lease

TRAC AND SPLIT TRAC LEASE³

Terminal Rental Adjustment Clause (TRAC) and Split TRAC leases typically offer lower monthly payments than purchasing but unlike an FMV lease, residual values are predetermined.

If the customer decides not to purchase the vehicle, Navistar Financial can sell the vehicle. The customer will pay selling expenses. The customer will receive any surplus greater than the residual value.

- For a TRAC lease, if the value at lease-end is less than the residual, the customer must pay the full difference.
- For a Split TRAC lease, if the value at lease-end is less than the residual, the customer will pay only up to the specified, maximum liability

For either TRAC lease, the customer can refinance the residual at prevailing used truck finance rates or re-lease the vehicle for a reasonable term, subject to credit approval.

TRAC AND SPLIT TRAC BENEFITS:

- Lower payments
- Predetermined residuals
- Options to purchase, refinance the residual, or re-lease the vehicle*

FAIR MARKET VALUE (FMV) LEASE

A Fair Market Value (FMV) lease offers a fixed monthly payment with no vehicle disposal requirements. Customers can either purchase the vehicle at fair market value or simply return it (after meeting all obligations of the contract, including mileage and return conditions).

FMV BENEFITS:

- Option but no obligation to purchase the vehicle
- A fixed monthly payment with no vehicle disposal concerns
- Lower monthly payments than other financing options
- No end-of-term residual obligations

* At prevailing used truck finance rates. Subject to credit approval.
